THE RECORD accepts congratulations.

How does it seem to be right in the world?

Roswell appreciates our telegraphic service.

Roswell is no longer twenty-four hours out of the world.

To-morrow is show day. How many children have you to take to the show?

To-day has given us the first touch of chilly weather. It is cold up north.

The Albuquerque fair is said to be a great success, and next to the Roswell fair is the best yet held in the Territory.

The daily reports of THE RECORD will be as much appreciated by the stock raisers around Roswell as any one feature of the paper.

Send a copy of THE RECORD to your friends back east, to let them know the town in which you live is right up to date in every particular.

A gas company is the next company to be organized here. It has been supposed by some that Roswell has gas enough, but this is a mistake.

Judge W. H. Pope has received his commission as Associate Justice of the Supreme Court of New Mexico. He may now assume the duties of his new position.

Heretofore the local page has been the front page of THE RECORD. With this issue the local page is transferred to the fourth page as the amount of telegraphic news received makes this necessary.

Let it not be forgotten that Roswell should show the Hearst party next week on its short visit here the busiest and best time they have had since they left Chicago. It is up to us. Roswell must not be found wanting.

Kansas City, Kansas, is now torn up over the discoveries of boodling by members of her school board. Day by day as different cities and states make astounding revelations of official corruption, weaker and weaker the argument becomes that New Mexico has not a high enough moral standard to become a state.

The Methodist Episcopal conference for New Mexico, which this year met at Albuquerque meets next year at Silver City. Roswell will soon be in a position to secure the meeting of a large number of the state associations. They want to come now, and will come just as soon as the new railroad is completed.

Professor and Mrs. E. L. Hewett of Pecos, passed through this city en route to the cliff dwellings to the west of Espanola. They will spend some time making investigations among these ruins.—New Mexican.

Prof. Hewett was the conductor of the teachers' institute here this summer, and many of our readers will remember an interesting lecture he delivered while here on the "Cliff Dwellers." Prof. Hewett will devote most of this coming year to original investigations in this interesting subject.

A Better Local Paper.

The fact that THE RECORD is now receiving the telegraphic news will in no way result in the elimination of local news. It has been a source of surprise to many that within the past six months each day THE RECORD has made its appearance brim full and with its columns overflowing with local news. Before THE DAILY RECORD made its appearance many supposed that Roswell had not reached those proportions or that there were enough "happenings" here in a day to make a readable daily paper. The copies of THE RECORD show the fallacy of this belief. Now that the cream of the world's news each day is given, this will be only an addition to the local news and not in any way a subtraction. More attention will be given to the local news, to give more of it, and to make it even more readable than heretofore. THE RECORD will take no step backward but forward as a local paper.

To Tucumcari.

Rev. J. L. Anderson, who has been pastor of the Methodist Episcopal church here since its organization last spring, has been assigned for the coming year to Tucumcari by the conference of the church which has just met at Albuquerque. Rev. Anderson, during his short stay here has made many friends, both in the church and outside, who will regret his departure from Roswell.

STORM IN COLORADO.

Woman and Babe Lose Their Lives in Attempting a 15-Mile Drive.

Denver, Colo., Oct. 15.—Mrs. Loneragin and her two years old baby perished in last night's storm. Accompanied by Mrs. Dennis Doran Mrs. Loneragin attempted to drive from Denver to a ranch in Adams county fifteen miles from the city where her husband was employed. The storm became so fierce that the women decided to seek refuge and shelter at the ranch of County Commissioner Fitzpatrick, and abandoning the buggy started to walk to the house. The storm became so furious and blinded by the darkness they became lost. For hours they struggled with the storm, helpless and alone, when Mrs. Loneragin discovered that her child was dead. Overcome by this shock she fainted and fell into an irrigation ditch. Mrs. Doran was too weak to drag her out, and wandered away in the darkness in the vain attempt to secure help. When morning came, Mrs. Loneragin and child were found dead, and Mrs. Doran is in a serious condition and probably will not recover.
